GOOD SAMARITAN HOSPITAL AND HEALTH CENTER
Dayton, Ohio

DEPARTMENT OF EMERGENCY SERVICES

PHYSICIAN CLINICAL PROFILE

I. NAME _____MD/DO, requests membership on the medical staff of Good Samaritan Hospital and Health Center with privileges in the Department of Emergency Services. Clinical privileges in Emergency Services shall be defined as those standard, usual, customary procedures appropriate to the diagnosis and treatment of any and all diseases encompassed by that specialty.

II. As verified by the Director of Emergency Services, I have demonstrated the ability, under observation of my peers to deliver the general level of care as required, with consultation provided, as necessary, for the primary emergency treatment of patients within the Emergency Department of the hospital. I subsequently will indicate my qualification and my ability to perform the general skills and some specific required manipulative and procedures skills.

III. I will not have admission privileges.

IV. I am contracted with that group of physicians which has the sole provider status for the Emergency Care of Good Samaritan Hospital and Health Center and have the following qualifications:

A. EMERGENCY MEDICINE PHYSICIAN:

_____ Board Certified by the American Board of Emergency Medicine (ABEM) or its osteopathic equivalent

_____ Eligible to take the certification examination of the ABEM

_____ Completed at least 2 years of post graduate training and practiced a minimum of two (2) years (i.e., 2000 hours) full-time emergency medicine and attest to the ability to perform the general skills and the specific required manipulative and procedural skills.

_____ Completed at least three (3) years post graduate training, board certified or eligible in a specialty and accumulated 1000 hours of full or apt-time emergency practice in the two years prior to this application.

B. RESIDENT OPTION PHYSICIAN/POST GRADUATE OPTION:

_____ Will always be working with a full-time or part-time Emergency Medicine Physician.

_____ Must be a resident in good standing in emergency medicine or in another residency with skills and experience appropriate to assume clinical responsibility at the same level.

_____ Complete at least three years of postgraduate training, board certified or eligible in a specialty, and attest to the ability to perform the general skills and the specific required manipulative and procedural skills.

C. FAST TRACK OPTION:

_____ Complete one year of post graduate training and attest to the ability to perform the general skill and the specific required manipulative and procedural skills in fast track.
